FOR THE YEAR 1893-94.

CHAPTER I.

EXPLANATION OF THE SYSTEM OF REGISTRATION.

THIS report, the eighteenth of its kind published by the Government of

1. Fortnightly returns of traffic carried by country boats along the Bhagirathi, the Jalangi and the Mathabhangha, commonly called the Nadia rivers.
2. Fortnightly returns of traffic carried by country boats on the Midnapore, Hijili and Orissa canals, and the Orissa Coast Canal.
3. Fortnightly returns of traffic carried to, and from, Calcutta by country boats and carts registered at a cordon of 24 stations around Calcutta and Howrah.
4. Monthly statements of traffic carried along the Brahmaputra and Meghna rivers by the steamers of the India General Steam Navigation Company and the Rivers Steam Navigation Company.

8. Annual statements of the sea-borne trade of Calcutta.
9. Annual statements of the inland and sea-borne trade of Chittagong.
10. Quarterly, half-yearly, and annual statements showing the wholesale prices per maund of all articles of trade received from 12 selected district officers, and also from the Collector of Customs, Calcutta, the Board of Revenue, Lower Provinces, and from the principal Indigo and Tea Brokers in Calcutta.

of Bengal."

During the year under report no change was made in the system under which the internal trade of the Province is registered, nor in the mode of registration of the trade of Calcutta and Chittagong.

2. The statistics which are furnished in Chapters II to IX of this report include—
Trade along the chief routes.

The boat traffic registered on the Nadia rivers.

The boat and steamer traffic registered on the Brahmaputra and Meghna rivers.

The steamer traffic on the Ganges, the Bhagirathi, the Jalangi, and the Hooghly rivers.

The boat traffic registered on the Midnapore and Hijili canals.

The boat traffic registered on the Orissa canals and the Orissa Coast Canal.

The boat traffic registered on the Calcutta canals.

3. The boat traffic on the Brahmaputra and Meghna rivers which crosses from Bengal into Assam and *vice versa* is registered at Bhairab Bazar and Dhubri under arrangements made by the Assam Administration. The steamers plying on the Brahmaputra and Meghna rivers between Bengal and Assam belong to the India General Steam Navigation Company and the Rivers Steam Navigation Company. Those on the Ganges belong to the India General Steam Navigation Company, while the steamers of the Calcutta Steam Navigation Company run between Calcutta and marts in the districts named in the margin. Statistics of the traffic carried by all these companies have been

obtained by Government from their records.

The acknowledgments of the Lieutenant-Governor are again due to the Agents of these Companies for the courtesy with which they have invariably permitted their trade statistics to be used by Government.

4. The inland trade of Calcutta and the inland and sea-borne trade of the Chittagong port are described separately in Chapters VIII and IX. The boat and road traffic of Calcutta is registered by means of a cordon of registering stations, 24 in number, placed on the Hooghly and on the canals and roads around Calcutta and the Suburbs and Howrah. For Chittagong, the returns exhibit the sea-borne trade, foreign and coasting, as well as that carried by country boats.

5. The classification of articles followed in this report is unchanged, and is in accord with the classification list which is adopted for the registration of the rail-borne trade of India.

6. The values of all the articles of trade specified in the valuation statement appended have been assigned according to the system adopted since 1887-88, *i.e.*—

(1) For the following articles of European merchandise exported inland, the value rates have been obtained from the Calcutta Custom House invoices:—

Cotton twist and yarn, European.	Oil	Kerosine.
Dyes	...	Aniline.	Paper and pasteboard.	...
Leather	...	Manufactured.	Salt.	...
Liquors	...	Beer.	Silk, raw	...
	...	Wines.	Do. piece-goods	...
	...	Spirits.	Spices	...
	...	Copper, unwrought.		...
	...	Brass, do.	Sugar	...
Metals	...	Copper, wrought.	Tea	...
	...	Brass, do.	Wool, manufactured, European.	...
	...	Iron.		...

(2) In the case of opium and other intoxicating drugs and chemicals, the actual cost of the articles as manufactured for Government or the trade, as the case may be, has been ascertained from the Board of Revenue, Lower Provinces.

(3) For articles included under the sub-head "Others," value rates have been ascertained once for all and standard rates adopted.

(4) For the other articles enumerated in the classification list, the value rates have been fixed on the basis of the prices prevalent in selected districts, and in the chief markets.

In regard to articles under head (4), however, enquiries made by the Government of India elicited the fact that the methods of obtaining value-rates differed in different parts of India, and, in Revenue and Agricultural

Department Circular No. 87, dated the 13th June 1893, that Government laid down the following principles for general observance:—

- (1) The values should be based on wholesale prices, not retail.
- (2) The values fixed for the quarterly returns may be the average of weekly or other periodical price quotations, or may be the average of prices prevailing on different dates during the period of active sale, but should not be the prices prevailing merely on a single date.
- (3) The values fixed for the annual returns may be taken as one-fourth of the sum of the values fixed for the quarterly returns.
- (4) The marts of which the prices are adopted, though they should be as representative as possible, need not exceed three or four in each Province.

In accordance with these instructions, and in consultation with local officers, the Government of Bengal selected four marts* from which quarterly valuation statements are now obtained, based on the average of the prices ruling on the last day of each month in those marts. This arrangement, however, took effect from the 1st April 1894, and does not affect the statistics in the present report.

7. In the trade returns for all articles of import into Calcutta from British provinces, the value rates of the exporting provinces have been taken, while in the case of exports from Calcutta the value rates have been assigned according to the valuation statement appended to this report, which has also been adopted in the valuation of the internal trade, import and export, of the Lower Provinces of Bengal.

8. A general summary of the seasons has already been published in the report on the rail-borne trade of Bengal.

Character of the season.

2. The Bhagirathi river was opened for through traffic early in June, and was navigable for large boats for a longer period than in the preceding year, thus allowing a greater number of vessels to pass during the year. The state of the entrance of the Mathabhanga river, however, continued unsatisfactory.

3. *Downstream traffic.*—According to weight, the past year's traffic showed a falling off of 2·60 per cent. as compared with the traffic of 1892-93, and of 16·57 per cent. as compared with that of 1891-92. The fluctuations in the principal articles carried downstream during the past two years, are shown below:—

		Total traffic registered in 1893-94.	Variations as compared with 1892-93.

4. *Jute, raw.*—The great bulk of this traffic comes from Northern Bengal. Comparing last year with 1892-93, the largest increase occurred in the consignments from Pabna (93,412 maunds), Malda (62,368 maunds), and Purnea (28,591 maunds); while the districts which showed the largest decrease were Murshidabad (75,324 maunds), Rajshahi (78,559 maunds), and Nadia (37,827 maunds).

5. Though the total traffic in food-grains showed a small increase of 44,606 maunds or 2.23 per cent., as compared with the previous year's figures, marked fluctuations occurred in some of the staples under this head.

In the case of wheat, the largest decrease is shown against Nadia, which supplied 86,816 maunds, against 1,18,630 maunds in the previous year. Among other supplying districts, Monghyr showed a falling off of 29,480 maunds, Murshidabad of 27,752 maunds, and Malda of 16,186 maunds. As regards rice, 1,56,442 maunds were received from Pabna, against *nil* in the preceding year, and the shipments from Murshidabad also showed an advance of 1,37,066 maunds. Under gram and pulse, the chief increases are attributed to Nadia (66,678 maunds), Patna (40,349 maunds), Bhagalpur (29,135 maunds), and Monghyr (23,906 maunds). As to miscellaneous food-grains, the chief decreases were in the despatches from Nadia (1,97,994 maunds), Murshidabad (76,906 maunds), and Malda (40,455 maunds).

The different trade blocks from which the food-grain supply during the past two years was received, are shown in the subjoined tables:—

6. *Oilseeds.*—The trade in linseed improved, the figures showing an increase of 1,60,475 maunds or 38·14 per cent. as compared with those for 1892-93. The improvement was chiefly due to larger consignments from Patna (1,04,988 maunds), Darbhanga (45,562 maunds), and Nadia (35,341 maunds), while a decrease of 85,934 maunds is reported from Saran.

In the case of mustard seed, the traffic was 42,454 maunds or 8·93 per cent. below that of 1892-93. The supplies from the Pabna district declined by 39,244 maunds, from Murshidabad by 18,048 maunds, from Rajshahi by 16,103 maunds, from Assam by 13,665 maunds, from Dinajpur by 12,875 maunds, and from Maldah by 12,084 maunds, against an increase of 30,526 maunds from Darbhanga, 29,889 maunds from Bhagalpur, and 12,789 maunds from Monghyr.

The following statements compare the total quantities of linseed and mustard seed carried downstream during the past two years, and show the different trade blocks from which the supplies were exported :—

CHAPTER VII.

TRAFFIC OF THE BRAHMAPUTRA AND MEGHNA RIVERS,
INTERNAL AND EXTERNAL (WITH ASSAM).

SINCE April 1892 the traffic that used to be carried by the steamers of the Eastern Bengal State Railway has been conveyed by the India General and Rivers Steam Navigation Companies, who ply their steamers on the Brahmaputra and Meghna rivers in connection with the Eastern Bengal State Railway, *via* Goalundo, and the entire traffic carried by them, both on their own account and on account of the Eastern Bengal State Railway, is returned in one statement. The statistics of trade for the past year, as for 1892-93, are therefore shown under the following two heads:—

- (1) Traffic carried by the River Steamer Companies;
- (2) Trade of Bengal with Assam carried by country boats.

2. The following statements show the total quantity and value of the traffic, internal and external (with Assam), registered during the past three years:—

14. The foregoing statement gives declared values in all cases, except in respect of piece-goods carried by railway and by inland steamers, which are registered by weight only. In the case of imports by rail, the value of

these goods has been calculated according to the value rates of the different exporting provinces. Under the other heads, values have been calculated at the rate of Rs. 68½ per maund, which has been taken to represent the average value of a maund of European piece-goods of all sorts in Bengal.

15. The figures given above against the imports by sea represent the total clearances for consumption from shipboard and from bond. The different ports from which the supplies were received during the past three years are shown in the subjoined statement.

16. The total export trade showed an increase of 1·15 per cent. as compared with 1892-93, and a decrease of 4·06 per cent. in comparison with 1891-92. The increase is due to the expansion of the trade carried by road routes. The following table shows in detail the different provinces to which piece-goods were exported from Calcutta during the past three years:—

17. With an addition of 25 per cent. to the total clearances from ship-board and from bond on account of under-statement of values, insurance, landing charges, &c., &c., the total value of the past year's import traffic would amount to Rs. 18,91,84,826. Of this amount, the value of piece-goods exported during the year was Rs. 12,72,45,041 as shown above. The value of the excess of imports over exports, therefore, amounted to Rs. 6,19,39,785 against Rs. 2,21,35,802 in 1892-93, and Rs. 2,41,70,741 in 1891-92.

GUNNY-CLOTH.

43. The registered trade of Calcutta in gunny-cloth carried by internal routes during the past year, as compared with the totals of the two previous years, was as follows:—

It has been explained in previous reports that gunny-bags and gunny-cloth are shown together in the railway returns. Moreover, in the case of the trade by road and river, this article is registered in pieces, while in the sea-borne trade returns it is shown in yards. For the purpose of converting pieces into yards, a machine-made piece is taken as equal to 80 yards, and a hand-made piece as equal to 22 yards. The foregoing figures, therefore, do not represent the actual extent of the transactions in Calcutta under this head, part of the trade in gunny-cloth having already been included under the head "Gunny-bags."

44. The total quantity of the sea-borne trade of Calcutta in this article during the past three years, was as follows:—

			1891-92.	1892-93.	1893-94.

48. The number of jute mills worked by steam in the vicinity of Calcutta during the past year was 25 against 24 in the two previous years. The quantity of jute worked up in 1893-94 was 70,73,357 maunds against 56,94,057 maunds in 1892-93, and 62,65,093 maunds in 1891-92. Figures, however, are not available to show separately how much of the raw material was used in making gunny-cloth and gunny-bags. The table below shows the number of looms and spindles at work, and the aggregate quantity of raw jute consumed in the mills in each district, during the past three years:—

The weather was again unfavourable in Bengal, and the tea made was not of a very satisfactory quality. Owing, however, to a larger crop, the fall in the exports in 1892-93 was recovered in the year under review, and the shipments were the highest yet recorded. The average price of tea sold in Calcutta during the past year was annas 8-2 per lb. against annas 8-8 in 1892-93, and annas 6-8 in 1891-92.

4. *Cotton, raw.*—In the past year exports of raw cotton declined largely due to smaller receipts from the Hill Tracts, where the crop was scanty.

5. *Jute, raw.*—There was a serious falling off in shipments of raw jute during the past year, owing to the crop being greatly curtailed by the excessively heavy rains which were experienced at the commencement of the season, and which, by causing floods, damaged a large quantity of the outturn. The destination of the exports by sea during the past three years was as follows:—

6. *Rice and paddy.*—During the year 1893-94, the amount of rice and paddy available for exportation was very small; crops were short, and, besides, a large amount of cultivation which had formerly been devoted to rice had been diverted to jute, the profits from the latter doubtless proving more lucrative.

The extent to which the different districts contributed to the past year's trade is shown below compared with the figures of the preceding two years:—

GRAND TOTAL	...	3,74,642	1,96,988	77,624

The total quantity of rice exported to foreign countries from Chittagong during the past three years is shown below:—

		1891-92.	1892-93.	1893-94.

	... { Mds.	8,74,968	2,34,477	1,33,288

The falling off was owing chiefly to smaller shipments to the West Indies, while there were no consignments to Réunion and Ceylon.

The quantities of rice and paddy sent to the different coast ports in India from Chittagong during the past three years, are detailed below:—

		1891-92.	1892-93.	1893-94.
Rice	.. { Cwts.	274,158	66,697	48,846

Paddy	{ Cwts.	226,471	134,735	16,779
	{ Mds.	3,08,252	1,83,389	21,477

The greatest decrease was in the shipments to the Madras ports.

7. *Salt.*—The quantity of salt exported from Chittagong by country boats during the past three years, was despatched to the following districts:—

		1891-92.	1892-93.	1893-94.
		Mds.	Mds.	Mds.

„ Other districts	..	1,756	582	2,426
Total	...	2,47,646	2,12,186	2,06,818

Besides these supplies, the quantity of salt shipped for Narayanganj by sea-going vessels was 98,680 maunds, against 1,43,600 maunds in 1892-93, and 1,93,496 maunds in 1891-92.
